

GDT (Intro Level)

****No Prerequisite is required to compete for your GDT Intro Title****

****Beginning APRIL 2025 GDT Intro will be a requirement to enter IDP and ID3/ID5 exercises****

GENERAL RULES

All exercises start in heel position with dog on left/right side.

Dogs may heel on the right or left side of the handler as long as it remains consistent throughout the routine.

A focused heel is not required to compete in the GDT Intro.

Heeling is judged based on consistency of the position throughout the routine.

Anytime the team halts, the dog should automatically sit on the handlers left/right side with shoulder even with handlers knee.

Leash is to be held in the hand the dog heels on and should be slack at all times.

The routine will be completed in it's entirety, there will be no break between obedience and protection.

Handler will need to earn a minimum of 30/40 in obedience and 30/40 in protection to pass and title.

EQUIPMENT

All dogs shall be wearing a fur saver or a choke chain with a leash, 4ft - 6ft in length.

For obedience, the leash will be attached to the dead ring before you step on the field.

Handlers will be instructed to attach an agitation collar at the beginning of the protection portion.

The live ring of the fur saver will be attached to the D-Ring of the agitation collar.

POINT DEDUCTIONS

Handler help will receive deductions of half to full point depending on the severity of the help the handler offers the dog.

Repeating commands will receive a one point deduction for each time the handler must re-command the dog.

Saying the dog's name to get their attention during the routine will be counted as handler help and receive a half point deduction.

Corrections (physical or verbal) of any kind will result in an immediate DQ and dismissal.

The judge can excuse the dog and handler if the dog makes an aggressive move towards spectators, stewards or the judge at any time.

If the dog fails to out, after 3 commands, it is an automatic DQ and dismissal.

PROTECTION

****At the end of the obedience exercise, the handler will be instructed to attach the agitation collar to their dog before moving to the start cone of the first protection scenario.**

****Handler will secure their leash to the live ring and D-Ring of the agitation collar.**

Scenario 1 - Appraisal Bite

In a controlled heel team will proceed to the start cone and wait for direction from the steward.

At the start cone, the decoy is visible and sitting in a chair

Handler will alert their dog to the decoy ("watch")

Decoy will approach to give dog an appraisal bite

When dog is on the bite, the decoy will give the dog 2 stick hits

Decoy will be instructed to freeze up facing judge

The handler will command the dog to out.

Handler will be instructed to heel away to a designated area

Halt/Sit

Exercise Complete

****3 attempts are allowed to out dog**

****If dog does not out after 3 attempts it is an automatic DQ**

Scenario 2 - Hidden Decoy in Blind

Handlers will heel to start line.

Handler will put the dog in sit.

Team will be signaled to heel forward towards the blind (about 5 - 8 paces).

Judge will signal the decoy to come out of the blind in a threatening manner.

Handler will drop the leash with command to attack the decoy.

Once the handler sends the dog, they will be instructed to remain in that spot.

When dog is on the bite, the decoy will drive the dog giving 2 stick hits.

The decoy will be instructed to stop fighting the dog and walk back to the handler (keeping the dog engaged).

The handler will walk up to their dog and pick up the leash.

The decoy will be instructed to freeze up.

Handler will be instructed to out the dog.

Once the dog outs, the handler can heel away about 5 - 8 paces.
